

About IVS

IVS (Intellectual Virtual String) Softtech has been providing business solution to the industry since 2015. We service an extensive list of small to medium-size businesses that stretch across the globe.

We specialize in corporate identity and brand awareness, as well as, on-line presence and e-commerce solutions.

Our staff of proficient domain experts can work with you to develop and manage projects that are exceptional quality.

IVS (Intellectual Virtual String) Softtech will be your one-stop solution. We will assist you in developing a strategy to produce your IVS Softtech materials for business use. We can assure you that your business will stand high above the rest, because we are confident that our team will satisfy your entire Internet and graphic needs. We look forward to working with you!

IVS Vision and Mission

Vision Statement:-

Our vision is to empower the Offline / Traditional Business with latest technologies and innovative solution and providing global platform and widen customer horizons. i.e. Transform Offline Business to Online.

Key challenge is to provide cost effective solution with long term benefits. That's why we work with our customer as partner instead of vendor/supplier and provide creative, innovative solution made for them those can be extended when needed in future.

Provide an environment to foster creative and innovative ideas from every team member, So that transform into real world solution and provide benefits to as many as many people.

Mission Statement:-

To be the most customer focused company in the world, Helping in Transforming Offline / Traditional Business to Online.

Work as partner instead of vendor / supplier and become growth catalyst for our customer.

IVS Core Values

Core Values:-

We believe that every organization is made up of people, whose work needs to be guided and coordinated.

Customer focus (know the customer to provide better solution)

Creativity and Innovation at work

Integrity (say what you mean and mean what you say) and Transparency

Sense of Ownership

Fun at work

Know the Basics and spend time in Details (details will make a difference)

Retrospection to Improve future path planning

IVS Solutions

Current Solution:-

1. IVS Student Alerts & Attendance System (ISAAS)

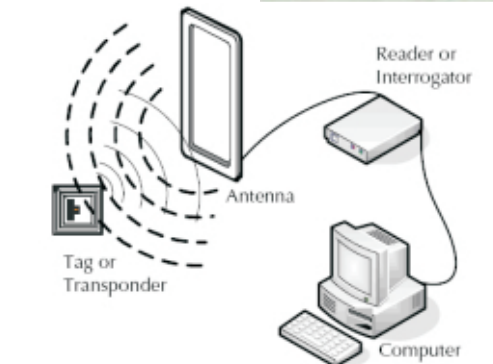

IVS provides bespoke two type of ISAAS RFID based solutions.

- a) Touch and Go Model
 1. Face Detection
 2. Fingerprint Reader
- b) GATE READER / Walk Through Model

IVS RFID Solutions : ISAAS

Salient Feature:-

- No Need to Change anything In Current Practice of Operation.
- No Need of a Computer or a Person to Manage as this is fully automated system.
- No Need of Internet cost for you. However, All Records are available online.
- Accurate & Automatic Student Attendance.
- Automatic Daily SMS to Parents on Arrival/Leave of student from school.
- Automatic SMS to Parents of Absent Students or student not leaving school after standard school time is over
- Automatic SMS to Parents of Students who tried to bunk the school or leaving earlier than regular time.
- Auto attendance of students as soon as student enters school premise / class Tracking, monitoring, and identification of students in school premise and in GPS/GPRS-enabled school buses in real time
- Keeping records of late arrival, early departure and time summary
- Besides daily tracking of the child, In School Attendance system can also be used to inform parents of the Events, Holidays and Change in any schedule of the school.
- Daily / Weekly / Monthly / Yearly Absentee/Attendance Customize Report
- Manual Entry Option for student who forgot his/her ID card.
- Bulk SMS facility for special events and announcements

IVS RFID Solutions : ISAAS continues ...

Benefits to Parents:-

- High-end technology that ensures complete safety and security of the child.
- Automated SMS updates to parents of their children at the time of arrival and leaving school premises.
- Helps in reducing stress level and anxiety of parents regarding the whereabouts of their children.
- Low cost and effective solution

School Benefits - Branding and Financial :-

- Sets a standard benchmark for schools in terms of Highly Specialized Technology
- Accurate & Automatic Student Attendance
- Helps in inculcating principles of discipline and punctuality in the child, Leads to better confidence on school by parent/guardian.
- Cost to Solution
- Almost Zero Setup Cost
- No Investment in Infrastructure
- No license and Maintenance fee
 - How ??? Pay As you GO - PAYG. Talk to our Sales team about cost/ revenue model.
- Dedicated Person to handle school queries and issues.
